Introduction to Data Science – Session 3 – Prep

- Please download a dataset that we are going to use in the class for our data wrangling exercises. This dataset can be found on the Montgomery County data website.
- Go to the following link: https://data.montgomerycountymd.gov/Education/Montgomery-College-Enrollment-Data/wmr2-6hn6
- Click on "Export" button at the top right on that page. It will bring up a pop-up box.
- Now click on "CSV for Excel" in the pop-up box you get.
- Save the file in a known location. Note that the name of the file and location where you save the file.
- We will use this file in our Session 3.
